Education

University of British Columbia — Vancouver, Canada
Bachelor of Applied Science – Computer Engineering — *September 2023 - May 2027*

- Outstanding International Student Award
- **Relevant Coursework:** Machine Learning and Data Mining, Economic Analysis, Human Computer Interfaces

Work Experience

True Alpha Intern — Bangkok, Thailand
True Corporation — *May 2026 – July 2026*

- Analyzed the retail customer journey and stakeholder requirements to identify opportunities for humanoid robots to improve the in-store customer experience.
- Collaborated with cross-functional teams to develop a proof of concept, define priority use cases, and present implementation recommendations to business and technical stakeholders.
- Received the program's **Winner Award** for proposing a practical humanoid robot solution to strengthen customer engagement and service delivery in retail spaces.

APSC 160 Undergraduate Teaching Assistant — Vancouver, BC
UBC Electrical and Computer Engineering — *Aug. 2025 – Present*

- Worked as part of a teaching team supporting over 700 students in the Introduction to Programming in C course
- Conduct weekly lab sessions and delivered presentations and demonstrations to explain programming logic, algorithms, debugging techniques,and computational design applications.
- Graded programming assignments, quizzes, and exams with feedback to support continuous learning.

Software Engineer Intern, AI/ML — Bangkok, Thailand
Skyller Solutions — *June 2025 – Aug. 2025*

- Developed a computer vision model using YOLO architecture to automatically detect and count steel pipes from drone footage of warehouse yards, enabling more efficient inventory monitoring.
- Prepared and annotated custom datasets, optimized model training pipelines, and fine-tuned hyperparameters for improved detection accuracy.

Club President | Promotional Director — Vancouver, BC
UBC Thai Aiyara Student Club — *Apr. 2024 – May 2026*

- Led executive team in planning and executing club events that promote Thai culture within the UBC community.
- Facilitated regular meetings to align team goals, monitor progress, and foster collaboration among departments.

Projects & Case Competitions

Multi-Agent Institutional Research Insights Tool | *Python, Amazon Bedrock, MCP, AWS CDK* 2026 – Present

- Partnering with the **UBC Cloud Innovation Centre** in a team of 5 to replace costly, static Research Information Systems with a lightweight AI platform that helps the university identify research collaboration opportunities.
- Leading weekly client meetings to uncover stakeholder needs, translating them into a prioritized, client-approved requirements baseline that sets project scope and success criteria.
- Engineering a multi-agent system on AWS that analyzes publications, grants, and patents, and delivering a pricing estimate and roadmap to support the client's adoption decision.

P&G Pantene Case Competition Winner | *Consumer Insights, Brand Strategy* 2026

- **Won 1st place** in the 2026 Samaggi Samagom x ATSA Case Competition, developing a growth strategy for P&G Thailand's Pantene Miracles Japan Premium brand.
- Collaborated in a team of 4 to analyze consumer insights, identify growth opportunities, and develop a marketing strategy to strengthen Pantene's position in Thailand.
- Translated research and commercial analysis into a clear, actionable recommendation presented to competition judges and industry professionals.

Skills

- **Business & Analytics:** Market research, consumer insights, data analysis, strategic problem-solving
- **Technical:** Python, SQL, Excel, PowerPoint, Scikit-learn, Git
- **Languages:** Thai (Native), English (Professional proficiency)
