PRODUCT: INNOVATION THAT REDEFINES GENTLENESS AND GIVES INTENSIVE REPAIR

Following the successful direction to introduce "**Gentle Repair on Accumulated Damage**", while incorporating local Thai consumer insights to address unique, unmet needs—especially among **TH1/1+ cosmetic users**.

This innovation remains within Pantene's Damage Repair architecture, while targeting a differentiated niche in the market.

Pantene Base: Offers effective repair for accumulated damage over time.

Pantene Miracles Japan Premium Edition: Elevates this proposition by delivering **gentle yet highly effective repair**, suitable for all levels of damage—without compromising scalp care.

In Thailand, we see a clear opportunity to establish a new growth pillar in haircare category by addressing the two most pressing consumer concerns: sensitive scalp and damage repair. Today, most products are designed to solve one or the other — either providing powerful damage repair or being gentle enough for delicate scalps, but rarely in one formula. This unmet need reveals a significant gap in the market, and Pantene Miracles Japan Premium Edition is uniquely positioned to lead with an innovative solution that unlocks a new growth pillar.
